3. The Duck

Narrator:

Behold the duck
It does not cluck.
A cluck it lacks.
It quacks.
It is specially fond
Of a puddle or pond.
When it dines or sups,
It bottoms ups.

4. The Python

Narrator: The python has, and I fib no fibs,
318 pairs of ribs.
In stating this I place reliance
On a seance with one who died for science.
This figure is sworn to and attested;
He counted them while being digested.
